

# INNOVATION CAMP

BY PIONEER SOLUTIONS

Step away from the day to day.  
Ignite your potential.  
Innovate better.

---

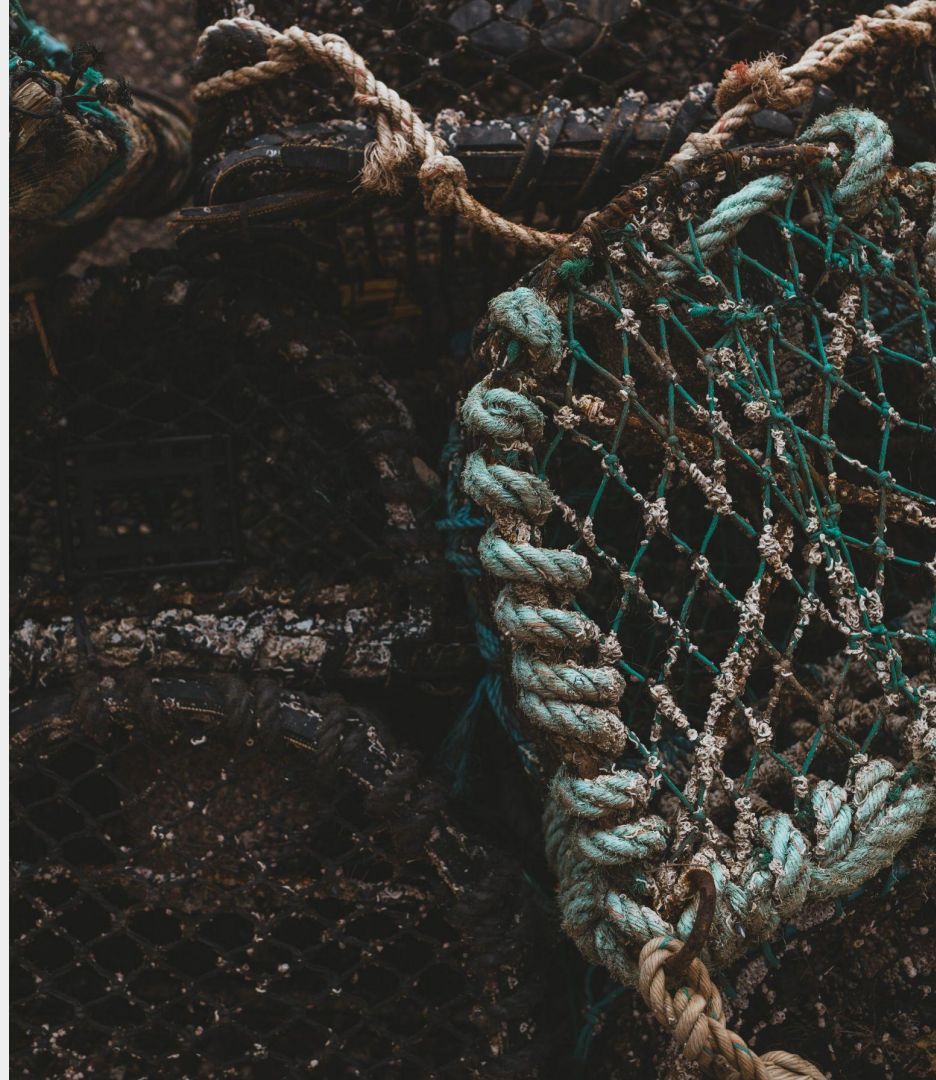

# There seems to be a constant issue...

Business of all sizes have the same issue when it comes to successful problem solving - none of us can stay out of our own damn way.

Large, established companies tend to lose their agility and innovative culture over time. Smaller companies preach innovation and agility; the reality is they tend to act without the processes and systems needed to succeed.

...

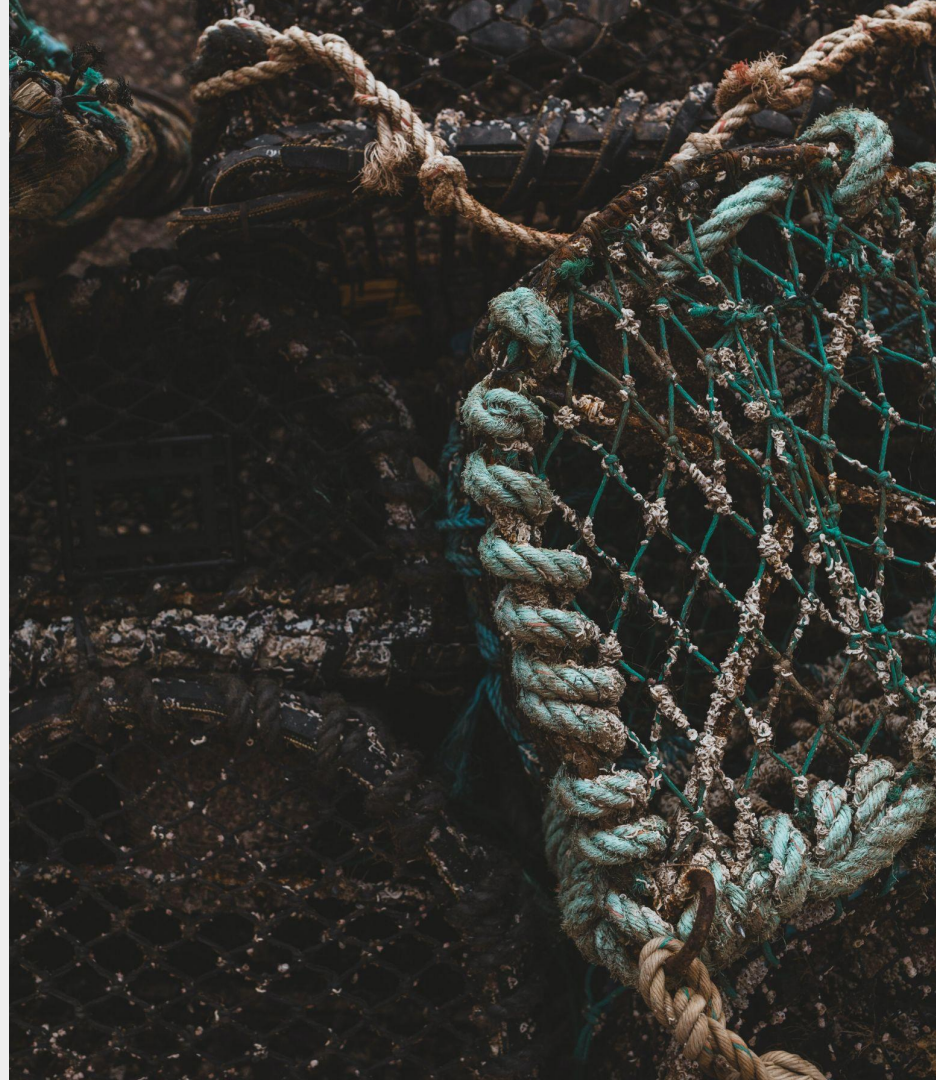

## The knot in the line...

Too many companies are stuck in "the way it's always been done" cultures. Leaders operate with conviction that their culture is rooted in collaborative productivity and problem-solving. When culture feels "off" - leaders offer social outings in hopes this will fix how everyone works together and how results are reached.

**We have a better way forward...**

## Innovation Camp...

Helps companies **innovate better** to efficiently problem-solve **towards sustainable success**.

We do this by following a time tested methodology built from decades of experience.

It all starts by taking an **intentional step away** from the day-to-day.

---

## Who we are...

We build **innovative products, processes,**  
and **cultures**

**We see opportunity** in partnerships.

## We Believe...

Skilled innovation is **mindful disruption,**  
which **creates scalable change.**

---

# Create Your Opportunity...

What if productivity wasn't measured by volume, but rather as impact? And what if problem-solving wasn't approached as a task to complete, but rather an opportunity to grab? And what if company culture wasn't measured in earned perks outside the office, but rather a rewarding way of working that actually drives results everyone can be proud of?

**Let's create an opportunity for your company** to give your teams the space, time and permission for an intentional step away from today - as a commitment **to innovate for tomorrow.**

---

# Join us on an adventure...

**Innovation Camp** is an engaging consulting service that **inspires intentional corporate mindfulness** through an outdoor experiential retreat, helping companies **innovate faster & more efficiently** to affect sustainable, cultural and rapid growth.

**Innovate better.**

---

# Our Process...

**We offer Innovation Camps for companies of all sizes...**

**Prior to camp:**

- **We collaborate on**
    - Identifying the problem statement/market opportunity to tackle
    - Identifying the best members of your team to bring to Innovation Camp
    - Chose a time and location for your camp
-

# Our Process...

## The Camp:

- **Mindful Disruption**
    - We take your team out of the office and give permission to focus on the future
    - We present the problem state and associated market research to kick-off the camp
  - **Knock Yourself Off Session**
    - A collaborative, open, engaging brainstorming period to identify solutions to the problem statement
  - **Creative Tension**
    - The ideas collected in the "knock yourself off" session are vetted through an open, respectful and thorough discussion
  - **Plan Development**
    - We work with your team to develop a plan on how to attack the implementation of the selected solution so that the project can start moving forward the first day your team is back in the office.
-

# Our Process...

## Post Camp:

- **Follow Up**
    - We set up time to follow up with you and your team post camp to make sure things are on track
  - **Additional Services**
    - We offer a wide range of services including staffing, project management, product design, and more to help fill any gaps in your current team that are necessary to executing on your solution and meeting your goals.
-

# Thank you...

We appreciate you taking the time learn about our Innovation Camp. Interested in getting started? Contact us to start your innovation journey:

- Complete our online [Contact Us](#) form on our home page
- Email us at [info@pioneersolutionsnw.com](mailto:info@pioneersolutionsnw.com)
- Reach out to the founders, [Dylan](#) or [Ryan](#), via LinkedIn

We look forward to helping you step away from the day-to-day and innovating better!
