

Pioneer Solutions brings over a decade of experience to the software selection process. We approach each project as a unique project, so you can trust that you're getting a research-based approach. We focus on your company's needs and provide visibility into the selection process so when you choose a solution, you can move forward with confidence.

## Software Selection III

- Deep dive into your current technology environment, needs, goals, and budget
- Current state process mapping and dataset wireframing
- Creation of a customized software comparison table
- Detailed research and analysis of software solutions (up to 6)
- Test environment setup for short-listed solutions prior to final selection (up to 3)
- Detailed review of findings and recommendations (focused on short-listed solutions)

**\$10,000**  
**(6-8 weeks)**
